ON THE HORIZON

HERE'S A SNEAK PEEK AT EXCITING NEW MODELS IN DEVELOPMENT AND DUE TO LAUNCH WITHIN THE NEXT FEW MONTHS.

Specifications

LOA: 90' 9" • Beam: 23' 3" • Draft: 7' 1" • Weight: 252,000 lbs (light) • Fuel/water: 5,000/600 U.S. gals. • Standard Power: 1 x Lugger 1276-A2 @ 340 hp • Top speed: 12 knots • Cruising speed: 10 knots • Base price: $5,200,000

QUEENSHIP 88

Retro-Style Passagemaker

Sparkman & Stephens' second design for Canadian yacht builder Queenship is an efficient, full-displacement 88-footer evoking the style of larger yachts of the mid-20th century. Design elements for the FRP hull include a canoe stern, a Portuguese bridge, high bulwarks, and a funnel. Unlike many modern yachts, the 88's sheerline will rise at both ends. The design is optimized for a live-aboard couple who intend to cruise far afield. The layout provides maximum privacy with the crew quarters located forward and three or four staterooms aft of the engine room. It has a spacious galley and full-beam master. A twin engine option also will be available.

For details, contact (604) 462-1388 or *queenship.com*

SUNREEF 92

Luxury Sailing Cat from Gdansk

Polish builder Sunreef revamps its aluminum 92-footer with graceful aesthetics and a reapportioning of interior space. Simple shapes give harmony and elegance to the profile, while the interior is reorganized with a larger maindeck living area and a custom dining table that can accommodate up to 12 people. Large windows give 180° panoramic views. The spectacular owner's suite forward and a half-deck below the saloon also features wrap-around windows. Lounging and alfresco dining areas on the aft main deck and flybridge plus five ensuite staterooms and two crew cabins in the hulls round out the arrangement.

NORDHAVN 56

Nordhavn Goes Sailing

With the upward creep of fuel prices, this robust 56-foot motorsailer underway at P.A.E.'s partner yard, Ta Shing, may be the shape of things to come for Nordhavn. Noting that motorsailers got a bad wrap for neither motoring nor sailing well, Nordhavn's design chief Jim Leishman says this model will combine the best of both worlds for a world cruiser of unequaled capability and comfort. With sails furled, due to her sailboat underbody she'll motor at nine knots. Unroll the sails, throttle back on the Lugger and, with 750 gallons of diesel, she's got range for the longest of passages.
